League Volunteer adds Data to Vote411

Our League member Tami Halcomb has been working hard this winter bringing data to both our League records and making information current and accurate for our region on Vote411.

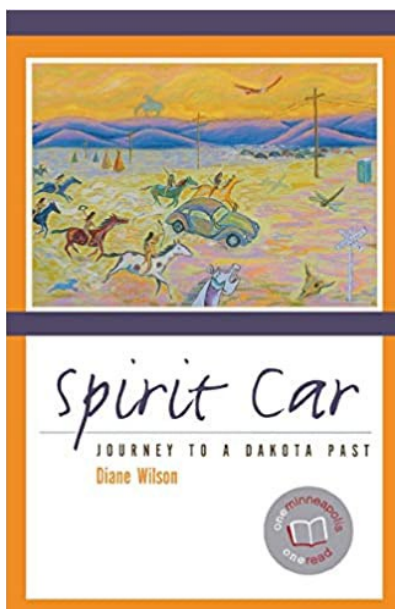

With diligence and attention to detail information for our region on Vote411:

- All *school districts* within 3-county SCV coverage area, plus a few that include areas beyond our counties (based on info included in the Polk County and St. Croix County clerks' data); 20+ school districts total
- All *Polk and St. Croix county races* based on the respective county clerk published data
- All *referenda* (county-wide, school district, and municipal) for Polk and St. Croix counties have been entered. Also, state-wide referenda have been added and configured by LWV WI and are displaying properly
- For *Burnett County*, only school district data was included; I received no response from the Burnett County Clerk, and as of Monday night, no race/candidate data was available on the Burnett County site

Remember we rely on our members to help keep us informed of local races—feel free to contact any committee chair if you have voting information for your village or town.
